EDUCATION

RMIT University

Master of Artificial Intelligence

Mar 2026 - Present

Melbourne, Australia

Lords Institute of Engineering and Technology

Bachelor of Engineering in Computer Science and Data Science

Nov 2021 - May 2025

Hyderabad, India

- CGPA: 9.23/10.0

WORK EXPERIENCE

Software Development Intern

Advi Group of Companies

Dec 2024 - June 2025

Hyderabad, India

- Worked as a Software Development Intern at ADVI, specializing in Generative AI development.
- Gained practical experience implementing Machine Learning concepts and contributing to innovative projects.

PROJECTS

End-to-End AI Coding Assistant & Document Analysis System (Major Project)

- AI-powered coding assistant powered by DeepSeek R1(1.5B) providing debugging support and code completion.
- Intelligent document analysis system using RAG-optimized AI for efficient information retrieval and Q&A.

Signify AI: Interactive Hand Sign Recognition Model

- Co-developed a hand sign recognition website with **57,600 images** for real-time ISL translation using dense neural networks and Mediapipe hand landmarks (**Smart India Hackathon 2024**).
- We were a team of 6 students from CSE-DS at LIET who participated in SIH 2024.

Space Y Launch Viability Analysis (IBM Capstone)

- Developed a competitive analysis model with 87% accuracy (94% on test data) to predict rocket landings, fetching data from SpaceX and evaluating four models: Logistic Regression, SVM, Decision Tree, and K-Nearest Neighbors (KNN).

Generating Synthetic Images using CNN and RNN (Mini Project)

- Designed and implemented a text-to-image synthesis framework using RNN and CNN, achieving 98% model accuracy, enabling high-fidelity image generation

CERTIFICATIONS, SKILLS & INTERESTS

Certifications:

- IBM Professional Data Science Certificate
- Data Science For Engineers (NPTEL)
- Introduction to Machine Learning (NPTEL)
- Data Analysis using Python (FreeCodeCamp)
- SQL Intermediate (HackerRank)

Skills:

- Programming Languages:** Python, SQL, C
 - Machine Learning & AI :** Numpy, Pandas, Scikit-learn, NLTK
 - Data Visualisation :** Matplotlib, Seaborn, Plotly, Tableau, Streamlit
 - Tools & Technologies :** Git, Github
 - Problem Solving, Team Collaboration, Critical Thinking.
- Interests:** Cricket, Esports, Graphic Designing, Video Editing.
